# CITY OF NEW SMYRNA BEACH

210 Sams Avenue • New Smyrna Beach, FL 32168 • (386) 424-2100

Welcome to New Smyrna Beach, one of the oldest and most charming cities in the United States of America!

With miles of white sandy beach, we are noted for sun bathing, surfing, and water sports. The close proximity to Ponce Inlet and the inland waterways provides a haven for boating, fishing and eco-tourism. In addition to our beautiful beaches and waterways, our seaside community proudly offers recreational activities for families and visitors of all ages, including parks, playgrounds, golfing, tennis, and shuffleboard.

We have two historic districts with dining, shopping, antique stores and art galleries. The Canaveral National Seashore Park borders our city on the south and many historical sites are nearby and west of the city. New Smyrna Beach is home to the Atlantic Center for the Arts, a world renowned, nonprofit arts education facility.

Our hospitality industry continues to thrive as many of our restaurants are noted for their exquisite cuisine, seafood specialties and appreciation of wine. For those visitors requiring overnight accommodations, we offer quaint bed and breakfast lodging, condos and hotels.

When all these good attributes are combined you wind up with a community that is geared to family style living, where you can enjoy the sand and surf in a relaxed atmosphere for a weekend, a week, a season or a lifetime.

*Sincerely, Russ Owen, Mayor*

## ABOUT THE COVER ARTIST

Cathy Berse is a 32 year resident of Florida and a signature member of East Coast Plein Air. Cathy feels that painting En Plein Air is a wonderful way to capture the true light and feel for this beautiful place we live in. Cathy invites her viewers to step into the scenes she has painted and enjoy them as much as she enjoyed painting them.

Cathy attended the University of Wisconsin, University of Tennessee and Milwaukee Area Technical College. In years past she has worked as a graphic designer, teacher and muralist. In 2004 and 2007, Cathy did the art work for the New Smyrna Beach Jazz Festival poster and t-shirt. Her paintings are in national, international and private collections.

One can find the cover piece named Mirror Like in the gallery of AT, at 399 Canal St. Suite 2, New Smyrna Beach. For more information go to [cathyberse.com](http://cathyberse.com)

Welcome to the New Smyrna Beach area! A seaside community with an authentic beach vibe and thriving collection of art, accommodations, independent dining, outdoor activities and attractions – all waiting to be experienced. From offshore fishing in the Atlantic Ocean to boating and paddling on the Intracoastal Waterway, visitors and residents will always find a sense of adventure.

The destination's 17 miles of hard-packed sand welcome sunbathers, runners, cyclists and visitors seeking the uniqueness of driving on the beach (although 12 miles are traffic-free and favored by some). A surf town at its core, New Smyrna is known worldwide for its consistent and performance-friendly break at Smyrna Inlet, home to professional surfers and frequented by East Coast surf stars and visitors seeking their next wave.

The area's downtowns feature local eateries, breweries, historic districts, arts communities, eclectic shops and visitors longing to extend their stay to explore more of what New Smyrna Beach has in store. The New Smyrna Beach area includes Port Orange, Osteen, Edgewater, Oak Hill and New Smyrna Beach.

No matter the season, come visit us and let our laid-back beach town spirit get inside of you.

Enjoy your stay,

*Debbie*

Executive Director, New Smyrna Beach Area Visitors Bureau

Debbie Meihls, CDME

### Have You Seen Me? Top 3 Plants Found on Florida's East Coast Dunes

Beach dunes offer a harsh environment, with blazing sun, salt spray and dry, blowing sand. But some plants do thrive, and these coastal wildflowers create a natural beauty found nowhere else. Here are three you are likely to see.

**1. Indian Blanket Flower, (*Gaillardia pulchella*):** Colors of this showy native range from yellow to red to orange. It attracts many pollinators and makes a great addition to any landscape, not just our dunes. Although *gaillardia* is not long-lived, it renews itself by readily self-seeding.

**2. Sea Oats, (*Uniola paniculata*):** This native plant is so important to our dunes' health that is protected by the state. Sea Oats relies on the sand blowing into its grassy blades to help hold it up. When running for your frisbee, make sure you don't disturb the Sea Oats.

**3. Dune Sunflower, (*Helianthus debilis*):** A sprawling groundcover, Dune Sunflower (or Dune Daisy) is a cousin of our towering sunflowers. The tiny yellow petals and black center steal the show on the dunes. This beauty can be found from the shores of Florida all the way up to Maine.

# NSB Goes Digital

## SHARE YOUR LOVE OF NEW SMYRNA BEACH

It was estimated in 2018 by The Daytona Beach Area Convention & Visitors Bureau that New Smyrna Beach receives over 10 million tourists annually. Imagine how many photographs must have been taken during that year. The customary way to share your experiences in the old days was to mail someone photographs. In modern times, we live in a digital world where Social Media is what binds us all. Sharing photographs and videos of the places we visit not only allows us to connect with our family and friends but it showcases to them the wonders that different cities can offer. There are a countless number of platforms where you can share their thoughts, reviews, and photos of New Smyrna Beach.

### Ways to Properly Share Your Photos on Social Media

First, let's begin with the most popular social media outlets for 2020 which are Instagram, Youtube, Facebook, Twitter, Tik Tok, Pinterest & Snapchat. On these platforms you can share your photos and videos with friends, family or people that may find your content interesting. Through your electronic devices such as your smartphones, laptops, tablets or computers you can access these social media applications or "apps", as the younger crowd calls them. Once you have found a social media platform that you prefer using, you will have to create an account and then you can begin exploring. Congratulations! You are now set up and ready to cast yourself into the world!

(\*A general rule of thumb is to never post anything you don't want the entire world to see.)

### Adding hashtags or #

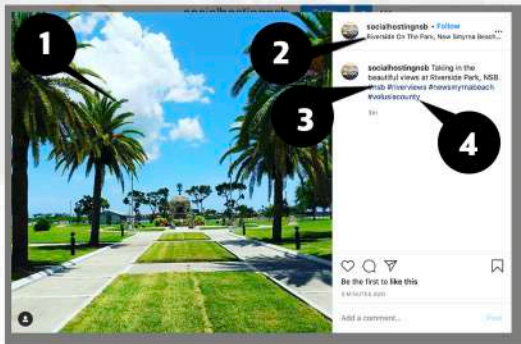

A hashtag is simply a keyword phrase, spelled out without spaces, with a pound sign (#) in front of it. For example, #NewSmyrnaBeach and #NSB are both hashtags. **"A hashtag is a label for content. It helps others who are interested in a certain topic, quickly find content on that same topic."** (smallbiztrends.com)

Here are a few #hashtags that will connect you with New Smyrna Beach locals/tourists #newsmyrnabeach #nsb #newsmyrna #visitnewsmyrnabeach #newsmyrnabeach #CityofNSB #nsbfood #visitsnb #nsbgolf

### Now Share It

Once you have added your photo, description, location and hashtag/tags, you can tap on SHARE to complete this social sharing experience.

We hope these tips help you understand what a successful social media post would include or look like and we encourage you to include these ideas in your future postings. For now, we sincerely hope you enjoy all the exciting wonders our beautiful city has to offer and if you want to help us grow and provide others with all the things you fell in love with, all you have to do is follow the steps below, the next time you visit New Smyrna Beach. See you soon! - Elisa (Hosting NSB)

1 Simply start with attaching a photograph/image or video.

2 Next you would add the location the image/video was taken in by typing in the place you took the photo or you can "tag" a person/business by adding the @ symbol in front. (Example: @cityofnsb)

3 Then you would add a short or long description/caption to your attachment. Twitter has a limit of 250 words, but other than that you can add as much or as little verbiage as you wish to your post.

4 After you have completed your story lines you will now add what is called a HASHTAG or #.

## THE NEW SMYRNA ODYSSEY MEMORIAL

Located in Riverside Park, the Odyssey Memorial stands twenty-four feet high and was designed by the Xepapas Design Group, led by the late architect Andy Xepapas of the American Hellenic Educational Progressive Association (AHEPA) that commemorated the arrival of the early settlers to New Smyrna from Greece, Minorca, Italy and Corsica. The project was completed in the early 2000's with the painting done by the Apostolos Group and Weston Coatings. They also re-painted the memorial in the summer of 2019.

## HELP US KEEP THIS THE "WORLD'S SAFEST BEACH..."

- Always swim directly in front of a lifeguard.
- Alcohol and glass containers are not allowed.
- Pets are not allowed on the beach except service animals required due to a disability, as governed by the Americans with Disabilities Act.
- Music or noise that can be heard from more than 50 feet of the source is illegal.
- It is illegal to disturb dune vegetation.
- Personal watercraft operators must stay in the proper zones and wear a helmet at all times.
- Grill on the beach is permitted. If using charcoal to grill, beachgoers must take the charcoal with them and properly dispose of it off of the beach. Charcoal cannot be disposed in the beach trash/recycle containers and it may not be put in the sand.
- Do not disturb a turtle that is crawling to or from the ocean or laying eggs. Watch from a distance.
- Avoid shining lights on the beach at night as this may frighten away nesting females and interfere with the baby turtles' ability to find the sea.
- Avoid walking or cycling in places posted as nesting areas.
- Immediately report any injured or dead sea turtle to the nearest Volusia County Beach Safety employee.
- Do not disturb markers or protective screening over turtle nests. These nests are being studied and protected.
- Avoid walking on the dunes along the beach.
- Do not disturb nesting sea birds
- Do not litter. Cigarette butts, fishing line and other trash can harm the animals and birds along the beach.
- Do your part to spread the word about environment-friendly habits on the beach.

# CANAVERAL NATIONAL SEASHORE

Canaveral National Seashore contains nearly 58,000 acres of barrier island, open lagoon, coastal hammock, pine flatwoods, and offshore waters. With 24 miles of pristine beach, it is prime habitat for many threatened and endangered species providing nesting beaches for several thousand protected marine turtles. Two thirds of the park is within Mosquito Lagoon. The lagoon is designated an estuary of national significance and an outstanding Florida water-way. It is one of the most diverse and productive estuaries in North America. The national seashore also contains cultural resources that reflect human history in the Florida peninsula from 2000 BC to early 20th century Florida settlement. Swimming, sunning, surfing and beachcombing are favorite pastimes on this strip of land that time as left untouched.

You may gain entrance to Canaveral National Seashore from south New Smyrna Beach, Apollo beach district or east of Titusville, Playalinda beach district. There are many entry point on the lagoon section of the seashore. For current operating hours and fees see [www.nps.gov/cana](http://www.nps.gov/cana)

## Welcome to New Smyrna...

## MARINE LIFE

Volusia County's world famous beaches attract millions of visitors each year. The sparkling, white sands of New Smyrna Beach offer a variety of environmentally friendly recreational experiences.

The beaches also are home to hundreds of fascinating plant and animal species. Some animals, such as the loggerhead sea turtle and the piping plover, are threatened with extinction. As a result, they are protected by state and federal laws. To preserve this beautiful natural resource for future generations of beachgoers, all of us must work together to care for and protect this fragile beach ecosystem. From May 1 through Oct. 31, Volusia beaches host an unusual marine visitor -- the sea turtle. These magnificent animals emerge from the surf at night to lay their eggs in nests dug into the dry sand, then return to the sea. Two months later, about a hundred baby turtles or hatchlings emerge from each of these nests and crawl to the ocean. This amazing cycle of Mother Nature is thousands of years old.

Volusia County has taken several steps to protect these gentle creatures. Beach driving and parking is regulated. Vehicles are not allowed west (landward) of the dune conservation zone where sea turtle nests are most common. Night driving and lighting from beach front properties is restricted because the mother turtles and tiny hatchlings are confused by bright lights.

Information compiled from the County of Volusia Web Page.

# PONCE DELEON INLET LIGHTHOUSE

In 1887 this 175 foot tall lighthouse flashed for the first time. Originally the beacon burned oil which was converted to electricity in the 1920's.

203 steps spiral upward to this great lamp which has a revolving lens made in Paris in 1867. The brilliant light beamed out to sea six times every 26 seconds and was visible some 20 miles out.

The lighthouse rests on a 45 foot wide base with a 12 foot foundation of brick. At the base the structure is 32 feet in diameter and tapers upward 175 feet. Also on this property is a sea museum which was once the head lighthouse keeper's house. Four other buildings lend a view of the past as one building has been restored and furnished in the era of 1890.

Today the lighthouse is open to the public from 10 a.m. until 6 p.m. lending a breathtaking view of Ponce Inlet, New Smyrna Beach and the surrounding area. The Lighthouse can only be reached by taking U.S. 1 from New Smyrna, crossing the Dunlawton Bridge in Port Orange and traveling south 6 miles to Ponce Inlet.

For more information, please call (386) 210-3660 or visit [www.ponceinlet.org](http://www.ponceinlet.org).

## EXPLORE THE OUTDOORS

### New Smyrna Beach Multi-Use Trail

This multi-use trail spans 2.2 miles from West Pine Avenue just north of State Road 44 off Mission Road to Sugar Mill Drive. The 12-foot wide, multi-use trail has been constructed in an existing utility corridor. The eastern trail head is on West Pine Avenue between Jungle Road and Pioneer Trail. The western end is next to Geiger-Glencoe Cemetery on Sugar Mill Drive. Parking is available at both ends.

### Indian River Lagoon Park on the Beachside

Featuring a scenic trail throughout the natural settings of the bank of the Indian River Lagoon Park off Sandpiper Avenue. Another section of the park has a nature walking / biking trail, which runs from 27th Avenue to 18th Avenue on the west side of Saxon Drive.

# NSB PARKS

The Parks Division is part of the Maintenance Operations Department within the City of New Smyrna Beach. They are charged with providing maintenance and stewardship of parks, trails, medians and other public grounds for the community. The mission is to provide safe, accessible and inviting parks & public spaces where quality of place, service and stewardship meet.

- Keep all of the City's parks clean, safe and in usable condition for everyone to enjoy
- Provide excellent public service to create a positive experience
- Create a Culture of Sustainability - manage parks and green spaces in a sustainable manner
- Ensure fiscal responsibility
- Manage parks efficiently. The city offers an Adopt-a-Park program for individuals and groups interested in volunteering to assist the Maintenance Operations Department keep our city beautiful

# New Smyrna Beach

“The quaint, cozy town with a whole lot of flair”

By Elisa Hernandez (Hosting NSB)

## What makes New Smyrna Beach a Foodie Paradise?

What catches the eye of locals, travelers and foodies are the many diverse restaurants and vast food options. When in NSB, the type of food you want to indulge in greatly depends on the type of atmosphere you desire. Locals and travelers love NSB for its breathtaking River and Canal views, along with the best sunrises and ocean backdrops on the East Coast. Living so close to the Atlantic Ocean and Intracoastal Rivers, we have plentiful access to a large variety of fresh seafood and shellfish.

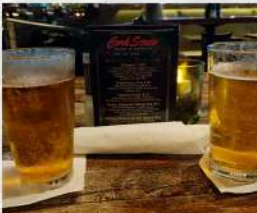

## The Dining Evolution of NSB

In the Spring of 2020 many restaurants had to adapt to the times and changed their protocols. When visiting restaurants in NSB you will notice they now offer a safer environment for customers to dine in such as seating with plexiglass or social distancing and take out menus for those that prefer to enjoy their dinner at home.

In this cozy town you can find a vast selection of food including barbecue joints, bistros, delis, taco stands, grilles, fresh Poké bars, vegetarian/vegan options, smoothie bars, cafes, ice cream shops, bakeries, tiki bars, old fashioned 50's style diners and lots more.

Also available are pet friendly courtyards and handicap accessible locations. The main areas to find food would be along Canal Street (The Historic District), Flagler Avenue, North Causeway, Third Avenue and Atlantic Avenue, plus along Dixie Freeway or US 1. Whatever direction you decide to take, there will be no shortage of great food and atmosphere.

## Drinks & Treats

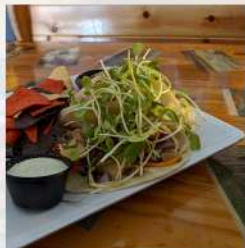

For those that want to get out of the house or hotel, you can stop by the incredible local breweries that NSB has to offer. A couple of local favorites are New Smyrna Beach Brewery, which specializes in serving handcrafted brews, wines and specialty popcorns. There is also the Half Wall which features a craft beer bar where you can order food and they boast over 76 craft beers on tap. For Barhoppers,

New Smyrna Beach also has an endless amount of bars such as the local favorite Traders Bar, if you want to catch up with the locals while indulging in a brewski.

After a satisfying meal with the family, you may want to stop by our famous Dairy Queen (A New Smyrna Landmark) for ice cream and treats, which has been around since 1953. This is an iconic, cozy little outdoor shop where locals grab a cone with their favorite ice cream on any given day.

If you happen to be in town for 2021, we recommend you attend the New Smyrna Beach Food & Wine Festival which are 4 days of food pleasure featuring 2- 5 course wine dinners, a Grand tasting and to finish it off a champagne brunch. The Grand tasting will be held at the World Class Brannon Center, overlooking the Intracoastal Waterway. More information can be found on [nsbwinefest.com](http://nsbwinefest.com)

In this town you will satisfy every food craving, guaranteed! New Smyrna Beach proudly caters to all budgets and special dietary needs. For a full comprehensive list of dining options in New Smyrna we recommend you visit [eatnsb.com](http://eatnsb.com).

## *Some of our favorite local go-to places that advertise with us are...*

## ELDORA...ANOTHER PLACE IN TIME

Enjoy a brief stroll through the century old live oaks to the once thriving village of Eldora. Close your eyes as you rock on the porch and imagine the excitement of the arrival of a steamboat, or just absorb a magnificent view of Mosquito Lagoon.

The Eldora State House was built around 1912 on the shore of Mosquito Lagoon and remained in use through the late 1950's. The last family to occupy the house was the Wells' family who vacated the building and moved to Jacksonville in the mid-1950's. In

1989, the non-profit organization Friends of Canaveral, including member T.C. Wilder (head of the steering committee to establish Canaveral National Seashore), started a campaign to raise money to renovate the property. One fundraising event, the Eldora Sampler, was held from the late 1980's until 1997. Finally, the restoration was completed and the Eldora State House "Renovation Completion Celebration" was held on May 22, 1999. The following day the house opened to visitors.

Friends of Canaveral still hold events at the house, including the annual Holiday Open House at Eldora. For more information visit [www.friendsofcanaveral.com](http://www.friendsofcanaveral.com).

# VOLUSIA COUNTY BEACH DRIVING

Driving on the beaches New Smyrna Beach is a Volusia County tradition dating back to the early days of the automobile. For years, beachgoers have enjoyed a leisurely drive on the wide, hard-packed sands. Please be a responsible beach driver by driving only in designated areas and observing the speed limit. The driving areas are designated by signs and wooden posts. Please watch for pedestrians, sunbathers and wildlife. Parking is allowed east, or seaward, of the posts.

The beach is open to vehicles from 8:00 a.m. and 7:00 p.m. or sundown whichever is earlier from May 1 through October 31, and between sunrise to sunset from November 1 to April 30, tides permitting. Beachgoers are encouraged to follow Volusia County Beaches on Facebook and Twitter for the latest beach information.

## Beach Passes

The following fees and passes are available at beach toll locations and the inlet parks:

Daily Beach Entry per vehicle	\$20	1 free re-entry/day/ same vehicle
Daily Inlet Park Entry per vehicle	\$10	Lighthouse Point & Smyrna Dunes Park - 1 free re-entry/day/same vehicle
Resident Annual Beach Pass	\$25	unlimited beach entry - 365 from date of purchase
Annual Inlet Park Pass	\$20	unlimited beach entry - 365 from date of purchase
Non-Resident Annual Beach Pass	\$100	unlimited beach entry - 365 from date of purchase
Resident Combo Pass	\$45	beach & inlet parks, unlimited beach entry - 365 from date of purchase
Non-Resident Combo Pass	\$120	beach & inlet parks, unlimited beach entry - 365 from date of purchase

The beach is always open and free to pedestrians and bicyclists depending on tides and access ramps being open. For further information regarding beach passes, please visit [www.VolusiaBeachPass.com](http://www.VolusiaBeachPass.com) or call the County's beach toll vendor, Faneuil, at (866) 398-6352.

## Beach Driving Safety

Please adhere to the following safety rules to ensure a positive, fun and safe experience for all beachgoers:

- Drive carefully and watch for pedestrians, especially children. **Observe the 10mph speed limit at all times.**
- Drive with your headlights on and front windows down.
- Parking is allowed east (seaward) of the conservation zone. Please park perpendicular to the coastline either facing the ocean or the dunes. Double parking is not permitted.
- Refrain from using your cell phone while driving. **Texting while driving is strictly prohibited.**
- Driving or parking in the conservation zone is prohibited.

# U.S. COAST GUARD PONCE INLET STATION

Nestled on government property at the end of Peninsula Avenue, Ponce Inlet, is the U.S. Coast Guard station. Operations began in 1938 at the present site with most of the structures from that era still in use daily. The newer building by the entrance has ten living quarter units upstairs while downstairs is the mess hall, recreation room and TV lounge.

The New Smyrna Coast Guard station is one of nine on Florida's east coast between Mayport in Jacksonville to Key West. Its prime mission is search and rescue, along with the awareness of boating safety to all those who use area waters. The station does get an assist from volunteers on that accord who are in the Coast Guard Auxiliary.

While some 31 guardsmen are assigned to the Ponce Inlet station, an additional 15 coast guard reservists put in time usually on the first and second weekend of each month, they also go on active duty two weeks each summer. In addition, the station is headquarters for a U.S. Marine Fisheries agent who's task in this area is to study marine life.

To assist in the tasks of a dangerous inlet, a new specially built 48 foot search & rescue vessel was delivered in 2001. State of the art, this craft can take seas up to 30 feet and if capsized, will right itself. It's state of the art in every way, from computers to 4 steering stations, three electronics and one hydraulic.

Smaller boats from 17' to 24' are also based at the Ponce Inlet station which also serves the St. Johns River and Lake George in west Volusia County.
